Educação

03/2023 – PRESENTE   PORTO ALEGRE, BRASIL

Computer Science | 1
Uniritter

- I am studying the second semester of the Computer Science course, I have acquired proficiency in software modeling and computational solutions. Currently, in the second semester, I am improving my skills in computer systems and security, as well as computer environments and connectivity.

- I am actively engaged in extracurricular projects, such as JovemTech, where we are focused on the personal and career development of underprivileged young people in the communities, providing valuable information about the demands and expectations of the job market, where they will be able to make a small application in Python .

- I developed a solid foundation in computer science principles and gained practical skills necessary for future success in the industry. I demonstrated a proactive approach to learning, actively seeking

Educação

opportunities to expand my knowledge and experience in the field of computer science. I am excited to apply my new knowledge and skills to real-world projects and contribute to the advancement of the industry.

PRESENTE

Linux
Alura

I have a good understanding of the Linux operating system, gained through Alura and practical experiences in addition to self-directed learning. I am comfortable with creating and managing files and folders, as well as navigating the file system. Additionally, I have knowledge of basic SSH commands, allowing me to connect and operate securely on remote servers. These skills allow me to work efficiently in Linux-based IT environments and contribute to the team from day one.
